

I'm sick

Hi, I'm Tom. Today have to stay at home. I'm not feeling very well. I've got a headache, a running nose and a cough. I think I also have a fever. As it could be Covid-19, I got tested, but until the results are ready, I have to stay isolated in my room. Mom gives me fresh orange juice, and an aspirin every four hours. I also take a syrup for my cough. I hate it when I'm sick because I can't meet my friends, I can't go to school and I can't play football. I hope the test will be negative!!!!

Hi, my name is Jessica. I feel really sick today. I am red with spots. I have also a fever. The doctor came and said that I had the measles. I can't go to school for ten days because I could infect my mates. I also have to stay away from the sun. I have to stay in my room and, most of the time, in bed. The good thing is, I won't be able to do my math test tomorrow. I wasn't prepared anyway. In the meantime, I'm going to read and play computer games.

Who says that, Tom, Jessica or both?

- I might have Covid. ()
- I can't stay in the sun. ()
- I have a fever. ()
- My nose is running. ()
- I am red. ()
- I can't play with my friends. ()
- I love play computer games. ()
- I take an aspirin. ()
- I don't like being sick. ()
- I got tested. ()

Answer the questions.

- Does Tom go to the doctor? _____

Complete the dialogue between Satia and Elise. Than act it out with a partner.

S: Hi, how _____ ? E: _____ not well.

S: Oh, _____ ? E: I have a terrible _____

S: _____ when _____ ? E: _____

S: You should _____ . E : _____ are _____

Role play

Student A

You have a health problem and you are at the doctor.
You describe your symptoms.

Student B

You are the doctor and your patient is describing his (her) problem. Make a diagnosis and give advice what he (she) should do or should not do.
